

ECOLOGY LINE E985E

TYPE	Warewasher
LINE	ECOLOGY LINE
BASKET	725x850
SIZE	1000x860x1855/2030h

The dishwashers of the ECOLOGY line ensure maximum performance thanks to the standard Acquatech System which, through an atmospheric boiler and rinse pump, maintains constant temperature and pressure and optimum water consumption. ECOLOGY ensures a sanitising rinse cycle and proves to be the perfect choice for canteens, nursing homes, pastry shops, bakers and butchers where compliance with HACCP rules is essential. For those who seek glass perfection, it is possible to connect a Reverse Osmosis System which purifies water and reduces detergent and rinse-aid consumption, ensuring excellent results and perfect glasses without the need for hand drying.

The E985E warewasher can effectively wash baking trays, pots, dishes and utensils measuring up to 700x825x655(h)mm within its baskets, thanks to the two independent wash pumps for the lower and upper washing circuits, with a maximum productivity of 30 baskets/hour (1780 dishes/hour). The work height and the counterbalanced door facilitate loading while the double walls improve thermal-acoustic insulation. The rounded moulded tank with integral filters ensures maximum hygiene and perfect draining.

The electronic control allows you to manage various parameters to give you an absolute customisation level and the continuous self-diagnosis allows you to minimise machine downtime, suggesting some operations to be verified. The self-cleaning cycle at the end of the day cleans the wash tank and empties the boiler from the hot water, preventing limestone forming inside. The standard double peristaltic electric rinse-aid and detergent dispenser ensures the best result from each wash cycle with great savings thanks to the precise dosage managed by the electronic card; whereas, the moulded washing and rinsing arms ensure great reliability and durability. The Thermo-stop function checks that washing and rinsing begin only when the desired temperature is reached. The bodywork is made entirely of AISI 304 steel and has been designed with all components in the front to allow easy technical assistance. Sturdy and reliable dishwashers to best deal with every moment of your day.

DISHWASHERS FEATURES

Dimensions - (mm) L - P - H	1000x860x1855/2030h
n° baskets/hour - (+55°C)	Max 30
Height pot max	680mm
LT bread basket	60 (H=395mm)
Trays	GN1/1 - 60x40 GN2/1 - 60x80
Tank heating element - Tank capacity	8,1kW - 100lt
Boiler heating element - Boiler capacity	8,1kW - 12lt
Washing pump	2,0kW - 2 x 2,7 Hp x2
Total power input / Current	12,1kW / 32A
Standard input voltage	400V3N - 50Hz
Recommended inlet water temperature	+55°C
Water hardness	7°f - 10°f
Water consumption per cycle (inlet suggested pressure 2 BAR)	2,5 l
Adjustable detergent and rinse-aid dispenser	STANDARD
Acquatech system rinse	STANDARD

STANDARD EQUIPMENT

8 division cutlery insert	1
Integral tank filter	STANDARD
Basket for trays with 5 compartments	1
Inox basket dim. 850x725x100 mm	1
Basket for trays 8 compartments	1

OPTIONAL

Built-in drain pump 190W with Ecoclean	●
Boiler heating element 9kW	●
Boiler heating element 9kW	●
Reverse osmosis system	-
Kit 4 Stainless steel feet 50-70mm	-
"SOFT Door" Opening/Closing System	standard

● Optional Installabile, - Optional not installabile
